ENDPOINT MANAGEMENT WITH SECURITY WORKSHOP

Manage and protect your devices, your apps, and your users

Today's users are looking for more ways to remain productive while working on any device. 95% of organisations allow personal devices in the workspace. All these devices add risks.

With users asking for more flexibility in how and where they work, the Six Degrees Endpoint Management with Security Workshop will show you how to manage and secure both company-owned and bring your own device (BYOD) devices in the cloud.

Enable users to be productive and secure, on any device, without compromising IT security.

Endpoint Management with Security Workshop Highlights

- Improve your Secure Score with Intune.
- Learn how to build management policies that protect your users, company data, and devices.
- Gain insights about your users' endpoints and their compliance with your IT policies.
- Determine the best way to give your users access to the apps they need on the devices they choose.

Why You Should Attend

The Six Degrees Endpoint Management with Security Workshop will show you how to leverage intelligent security, risk-based controls, zero-touch provisioning, advanced analytics, and deep integration to the Microsoft products you already use. By attending, you can take the first steps to:

- **Learn** how to improve your management capabilities with Intune.
- **Discover and protect** your endpoints by enforcing policies and deploying security tools.
- **Secure** your users' identities with multi-factor authentication and conditional access from any device.
- **Enable** your users to be productive with the applications they need, on the devices they want.
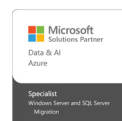

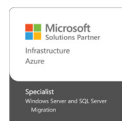

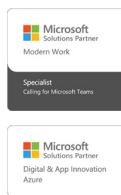

Why Six Degrees?

When it comes to endpoint management and security you need an experienced partner. Six Degrees has seriously strong Microsoft credentials – as one of the first Azure Expert MSPs in the UK, we have the resources, capabilities, and partner relationships to give you confidence that we are best placed to enable you to manage and protect your devices, your apps, and your users.

Six Degrees is a Microsoft Solutions Partner for Modern Work, as we have demonstrated a broad capability to help organisations boost their productivity and make the shift to hybrid work using Microsoft 365. We also employ one of only 10 Microsoft Most Valuable Professionals (MVPs) for Enterprise Mobility in the UK.
